

SUPPLEMENTAL INFORMATION

‘Community Structure in Methanogenic Enrichments Provides Insight into Syntrophic Interactions in Hydrocarbon-Impacted Environments’

S. J. Fowler, C. R. A. Toth, and L. M. Gieg

1 Supplemental Figure

Figure S1

Figure S1. Top: Rarefaction curve results for 16S rRNA gene sequences for methanogenic enrichments sequenced by pyrotag sequencing at 3 and 5% clustering distance. Bottom: Results of Bray-Curtis dissimilarity analysis.
